NEWS – User's personal settings

We have added an option to the user's personal settings "all online".

If you select this option, when you log into Webdispecink and click on Dispatching at any time, all vehicles will be selected and tracking will start.

The screenshot displays the 'Settings > Users > Personal settings' page. The interface includes a navigation bar with 'Dispatching | Statistics | Tools | Forwarding | Settings | Favourites | Support | Admin'. The 'Personal settings' page is divided into several sections:

- Default vehicle:** A dropdown menu set to 'NONE'. Below it, a list of vehicle IDs is shown, with 'all online' selected. A note states: 'all online is displayed in Dispatching. Use this when functions for e-mail are entered.'
- Open the agenda after logging in:** A dropdown menu set to 'Dispatching'. A note states: 'after logging into the system, the preset report is opened'
- Map settings:** A dropdown menu set to '13'. Checkboxes for 'draw line when tracking' and 'Rotate symbols according to the direction of driving' are checked. There is also an unchecked checkbox for 'show vehicles as points' and a 'Layer:' dropdown.

Below the settings, a map of Europe is displayed. A red box highlights a list of vehicles in the 'vehicles' section, including IDs like 2B47644, 2MS 0018Ppp, 3A41995, 3AB 4466, 6AX 1980, 6M1 2843 - OBU, 7AR 6071 - dongle, 9AS 1854, 9B32095, EL052AF, EL429BK, 04K000, Mank5, Test offline, and tonitest3. The map shows a yellow warning icon over a location in Germany, with a pop-up window displaying details for '9AS 1854'.

NEWS – Short version of diet documents

Among the bulk exports
(Exports - Other)
has been added a new XLS re-
port Drivers - diets – short.

This is a shortened version of
export for diet documents. The
columns now fit on one page
when printed.

The screenshot shows the Webdispatching application interface. The top navigation bar includes 'Dispatching', 'Statistics', 'Tools', 'Forwarding', 'Settings', 'Favourites', 'Support', and 'Admin'. The main content area is titled 'Statistics - Summaries of vehicles - Exports:' and features a date range filter from '1.8.2024 00:00' to '31.8.2024 23:59' and a 'Show' button. Below this, there are several sections for different export types, each with a table of columns: Name, Group, type, report, and ran most recently. The sections are:

- Bulk log book export
- Bulk costs and fuel consumption export
- Vehicle statistics export
- Driver statistics export
- Driver / vehicle statistics export
- Refuelling control exports
- Other

An 'Export' dialog box is open in the foreground, displaying a list of export options under the heading 'Export'. The options include:

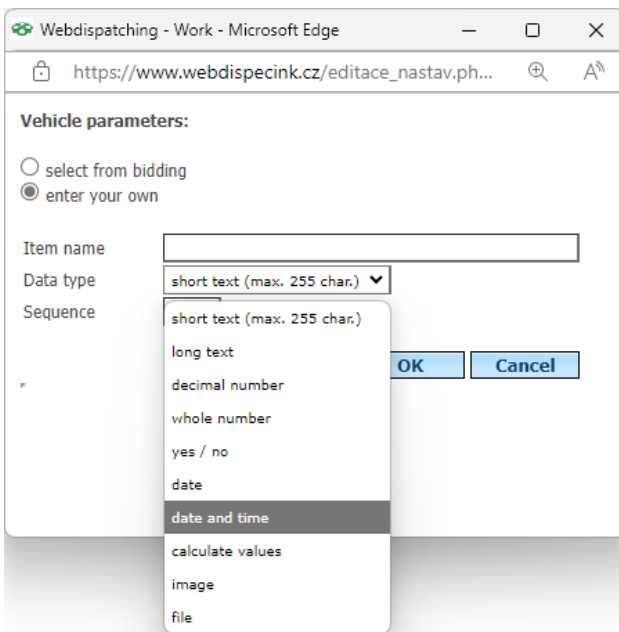

- Export type: ... select ...
- Name: ... select ...
- Group: Rendezvous, Speed
- Virtual folder: Hours worked by drivers according to speed recorder (without support), Approach in km by country, Invoicing, Temperature, Journeys check / working hours, Transit through own place, SMS communication, Histogram of revolutions, Trip mode, Hours worked by drivers according to speed recorder - total (without support), Drivers - travel allowances, Drivers - diets - short (highlighted), Summary statistics of driver allowances, Travel orders including meals, Speed drivers, Drivers' hours by tachograph - DB, Drivers' hours by tachograph - DB - total, Annual statistics vehicles

NEWS – Vehicle parameters – new item date and time

To Settings/Vehicles/**Vehicle Parameters** has been added **date and time** entry.

At the same time, all saved date in the data entry have been modified to not show the time.

To maintain backward compatibility, the type of all existing parameters with the date type has been changed to date and time. This will preserve the time for all parameters and you can manually change the type to date if you need to.

Webdispatching - Work - Microsoft Edge

- file

NEWS – List of users – filter added

A new filter has been added to the user list to display active users.

You can filter users to active/not active/all.

Settings » Users » List of users:

NEWS – Notification of missing data

If you are a user with admin rights, it is possible that you will see a bar with a notification to add/update/check your company details.

The notification is displayed until you click on it and fill in/confirm the correct company details.

It is important to fill in a technical or contact e-mail.

END

We hope that you have found useful information in the articles in this issue of the magazine that will make working with your fleet even easier.

Thank you for your trust.
