NEWS – New Vehicle statistics - other parameters

We have completely redesigned and improved the Vehicle statistics – other parameters.

- filtering over the whole list or over a specific column
- sorting of individual columns
- switching columns off
- export to excel
- new editing parameter

NEWS – New Vehicle statistics - other parameters

Statistics shows an overview of other parameters set for each vehicle (Settings/Vehicles).

If you would like to add additional parameters to the vehicles, it is necessary to define the parameters in Settings/Vehicles/Vehicle Parameters.

Automatic cost import

Activate Automatic cost import and your costs will be imported automatically into the costs for each vehicle.

It is enough to have entered the cards in the fuel card register in Webdispecink and to give your consent to provide data to Webdispecink.

If you would like to use the package, please contact us, we will be happy to help you 233 555 111.

NEWS – WD Fleet Application

At the beginning of next year we will be preparing a new version of WD Fleet 1.9.0, the biggest change will be a new version of Sygic navigation, which will have a new version of libraries built in to improve route calculation and also a more accurate Traffic.

PF 2025

Merry Christmas wishes you the whole WEBDISPECINK team.

END

We hope that you have found useful information in the articles in this issue of the magazine that will make working with your fleet even easier.

Thank you for your trust.
